

Background Safety Checks and Best Practices for those working with children.

Join us for a free forum offered by the
Department of Services for Children, Youth and Their Families

Do you run a school or camp or business that caters to children? You have an enormous responsibility! Do you employ best practices to keep children safe? **COME** and learn about background checks, abuse protection programs, mandatory reporting, and new regulations to help keep the children you serve safe! Join us on Thursday April 16 or Saturday, April 25!

Come and Learn:

- What steps can I take to help ensure that children are safe?
- What does the law require me to do as someone who is entrusted with the care of children?
- What types of background checks are available and are they required for me and my staff members?
- What is a mandatory reporter, and am I one?
- What is the Child Protection Registry and how does it affect my school, camp or business?

Who:

This forum is primarily designed for camp and private school providers and administrators, as well as administrators of child-centered organizations, but anyone who cares for children is welcome to attend.

When:

Thursday, April 16, 2015 at 8:15 am - 11:30 am (Breakfast Included)
